

THE POWER TO SAVE A LIFE IS IN YOUR HANDS.

GET NARCAN®-TRAINED FOR FREE.

If someone you know is at risk of overdosing on heroin or opioids, including painkillers (such as OxyContin® or Percocet®), you can save them—with Narcan®. It's a medication that can reverse the effects of an overdose. Community training is available to teach you how to administer it, free. To obtain the training and Narcan®, call the Cecil County Overdose Prevention Coordinator at **443-245-3785** or visit www.rewriteyourscript.org/Overdose-Response.
